### REMARKS

In response to the Restriction Requirement of November 12, 2004, Applicants hereby elect Claims 9-27 corresponding to Invention I, drawn to methods of fabricating semiconductor devices. Applicants have canceled Claims 1-8 and 28-33 corresponding to Invention II, drawn to semiconductor devices. This cancellation is being made without prejudice to the filing of a divisional application for these claims and/or other claims.

Applicants are not traversing the restriction requirement because Applicants agree that unpatentability of Invention I would not necessarily imply unpatentability of Invention II.

The title has been changed to conform to the election of method claims 9-27.

In view of the above, Applicants respectfully request favorable examination and allowance of Claims 9-27.

Respectfully submitted,
